Language Tutoring (English)	آموزش زبان (انگلیسی)	د ژبې ښوونه (انگلیسي)

How to Use this Flyer

This customizable flyer was developed for staff to share with Afghan families who are new to their school community.

The flyer is designed to 1) provide families with contact information for resettlement resources in their community, and 2) ensure that families know how to contact the school staff member responsible for welcoming and following up with newcomer families about needed supports.

The flyer also includes scannable QR codes in Dari and Pashto to inform families of their rights and laws in the United States.

To ensure that families receive the information in their language of origin, the next page includes a word bank of relevant terms in Dari and Pashto that staff can easily copy and paste into the first column of the flyer.
