

2013 Early Childhood Data Systems Survey

Status of securely linking child-level data across Early Childhood Education (ECE) programs⁵ "Linking child-level data across programs" refers to the ability to follow individual children across ECE programs. For example, if the two databases link child-level data, a program administrator could identify that a child attends both a State Pre-Kindergarten program and a Head Start program. State links across all programs State links across some programs Yes State has the capacity to link, but is currently not doing so State planning to link State does not currently intend to link Method(s) to link child-level data across ECE programs Unique Child ID Yes Matched on other variables, such as name, birthdate, gender Both Unique Child ID and matching on other variables ECE program databases being linked Early Intervention (IDEA, Part C) Yes Preschool Special Education (IDEA, Part B, 619) Yes State Pre-Kindergarten⁵ Yes State-Funded Head Start⁵ N/A Federal-Funded Head Start Subsidized Child Care Yes Status of securely linking ECE child-level data to state K-12 data systems "Linking child-level data to state K-12 data systems" refers to the state's ability to follow individual children between early childhood education databases and the state's K-12 data system. For example, a program administrator could identify that a child, who is a Child C

² 'N/A' means the response option was not applicable

³ Includes all states and the District of Columbia

⁴ ECE programs include Early Intervention (IDEA, Part C), Preschool Special Education (IDEA, Part B, 619), State Pre-Kindergarten, State-Funded and Federal-Funded Head Start and Subsidized Child Care.

⁵ Not all states offer State Prekindergarten and/or State-Funded Head Start. The total number of possible responses for questions referring to these programs are: State Prekindergarten (n=43) and State-Funded Head Start (n=15).

All states adhere to the Family Educational Rights and Privacy Act (FERPA) and Health Insurance Portability and Accountability Act of 1996 (HIPAA) which protect the security of individual level education and health data. The responsibility for governing data privacy and/or security functions resides in multiple agencies. In Ohio, the established ECE data system governance entity also performs this function.
