

# Ohio

The Centers for Disease Control and Prevention, in partnership with ASCD, developed the Whole School, Whole Community, Whole Child (WSCC) framework to highlight the need for schools to address all aspects of children’s physical, mental, and social well-being to help them learn and thrive. In 2019, Child Trends, the Institute for Health Research and Policy at the University of Illinois at Chicago, and EMT Associates, Inc. released the [first comprehensive analysis](#) of state statutes and regulations that address key topic areas in each of the WSCC’s 10 components as of September 2017. This updated profile documents the landscape of selected school health policies in Ohio as of September 2019 and describes how those policies have changed since 2017. The profile also newly incorporates information about whether states have non-codified policies on topics for which they do not have codified statutes or regulations. The full set of topic areas, along with applicable statutory and regulatory language, is available through the National Association of State Boards of Education’s (NASBE) [State Policy Database on School Health](#). The national summary report and profiles for each state can be found on the [Child Trends website](#).

## Policy Churn in Ohio Statutes and Regulations, 2017 to 2019

	Ohio	National
Community Involvement	20%	11%
Counseling, Psychological, and Social Services	30%	22%
Employee Wellness	0%	0%
Family Engagement	38%	11%
Health Education	0%	3%
Health Services	0%	2%
Nutrition Environment and Services	6%	3%
Physical Education and Activity	0%	2%
Physical Environment	20%	13%
