

## Next Step Prompts for Leveraging Partnerships

Now think about next steps to increase partnerships around sexual health services and set some intentions. The following statements serve as prompts to help you identify your next steps.

1. Identify at least one new potential partnership that would benefit sexual health services provision within your school-based health setting over the next three months.

*Think about new opportunities for partnership development related to sexual health service delivery in your SBHC. Ensure that your conversation identifies ways to reach all student population*

2. Identify at least one existing partnership that could further improve sexual health services within your school-based health setting over the next three months.

*Think about what is already happening within your SBHC around sexual health services partnerships engagement. Consider how an improved partner relationship could make services more efficient or more effective. What small change do you think would improve a key relationship? Test the idea. Then consider an additional small change.*
